

Annual Report 2021

DEDICATION

This Annual Report is dedicated to the residents of Branch, Hillsdale, and St. Joseph Counties who gave of their time and talents to support the efforts of the Health Agency during the COVID-19 Pandemic response. Without them, our agency would not have been able to meet the challenges and opportunities of the past 2 years.

ORGANIZATIONAL CHART

LETTER TO THE COMMUNITY

Letter to the Community:

Fiscal Year 2021, year two of the COVID-19 pandemic, consumed most public health resources. The scientific community had learned a lot about COVID in year one which led to many important developments implemented in year two including: safe and effective vaccines, safe and effective treatments, and an increasing amount of knowledge about effective mitigation strategies. Although new variants of the virus continued to infect more individuals, these new prevention strategies saved countless lives. I'm pleased to highlight some of the efforts of "Your Local Health Department" in 2021 that targeted public health activities and served to protect the community members in our area:

- Vaccines to prevent COVID infection became available by December of 2020; with the tremendous efforts made by generous community volunteers and those in public health, we were able to plan for, and implement, mass vaccination clinics. Initially, two safe and effective vaccines received "Emergency Use Authorization" in the United States for people 18 years and older. During the year, we received additional vaccines and expanded into younger age groups. Initial vaccine demand was strong and, due to limited supply, was targeted for distribution to the most vulnerable members of the population. By April of 2021, the demand for vaccine had lessened, and with pharmacies and other local providers playing an important role in vaccinating tri-county residents, the mass clinics were phased out and ultimately ended.
- BHSJCHA was gifted an ultra-cold vaccine storage freezer by the COVID-19 Relief Taskforce in Branch County, providing the equipment necessary to bring the Pfizer vaccine to the tri-county area.
- COVID testing became more difficult to find during the year and to help meet the demand for free testing, BHSJCHA provided opportunities throughout the tri-county area at each of our office locations.
- BHSJCHA added to its inventory a mobile clinic van and hired a nurse to staff it and utilize it; because of this, the agency was able to begin providing vaccinations to homebound community members and congregate care homes.
- Amidst widespread safety concerns from community members, BHSJCHA continued to work closely with local school leaders on plans to protect students, teachers and staff that were returning to in-person learning and various in-person extracurricular activities.
- A local Health Order issued in September requiring quarantine of individuals with a close contact exposure at school, or in a workplace, was rescinded at the end of that month due to legislative bills targeted at public health funding.
- A surge in infections from the Delta variant were beginning as the year ended.
- Dr. H. Lauren Vogel, DO MPH, Medical Director retired and was replaced by Dr. Karen Luparello, DO from Hillsdale.
- The Agency invited WIC families of children under 1 year back for in-person appointments.
- Emphasis was placed early in the year on getting as many people as possible vaccinated for flu.
- More resources were put toward communicating through social media and our website; Instagram was added as a social media platform for the Agency, as well.

The team at Your Local Health Department is proud of our public health work and look forward to continuing to serve you and your family into 2022.

Yours in Good Health,

Rebecca A. Burns, MPH, RS

“

“These people are awesome. Dr. Iveson is the best ever. I highly recommend this crew, First and foremost, ALL of the staff in the Coldwater MCDC office are friendly. They treat you with respect and kindness. Second, they care about your health over all. Third, but probably the most important, they gave me back my smile!!!! For me personally, it was a long haul. I had a few issues. I have a reseeding gum line, because of this my mouth is very sensitive, and I am a huge baby. Dr. Iveson is amazing he made sure to help control the pain all the way through my treatments. I have a full bottom denture and a partial on top. Their lab is terrific the teeth match my teeth perfectly. I love the bottom denture it looks natural and nobody can tell it is a denture. I think the whole team at MCDC Coldwater are terrific and I recommend anyone to go there.” – Rainee, Coldwater

“Every single person at MCDC in Sturgis was fantastic from beginning to end. Even the initial call to register was GREAT! It’s not often that a business has friendly people at every level but MCDC does! Everyone was friendly, they took the time to explain everything and were a joy to chat with. Best dentist experience I’ve had!” – Jacqueline, Sturgis

WIC-WOMEN, INFANTS, & CHILDREN

What is WIC?

The Special Supplemental Nutrition Program for Women, Infants and Children (WIC) is a public health nutrition program under the USDA that provides the following for income-eligible women who are pregnant or post-partum, infants and children up to age five:

- Nutrition education
- Nutritious foods
- Breastfeeding support
- Healthcare referrals

WIC can help a family by:

- Reducing premature births
- Reducing low birth-weight babies
- Reducing fetal and infant deaths
- Improving diet quality
- Increasing access to regular healthcare
- Increasing immunization rates
- Increasing access to prenatal care
- Increasing pregnant women's consumptions of vital nutrients

WIC: PARTICIPANT COUNT OCTOBER 2020- SEPTEMBER 2021

CHILDREN'S SPECIAL HEALTH CARE SERVICES

Children's Special Health Care Services (CSHCS) provides services to children with special needs and their families. You are eligible for CSHCS if you are a Michigan resident between the ages of 0-21 years, have a qualifying medical condition and seeing a specialist. CSHCS covers up to 3,000 various conditions and is available to families at all income levels.

The Michigan Department of Health and Human Services (MDHHS) provides FREE hearing and vision screenings to all children in Michigan. Screenings are conducted in schools or at BHSJ Community Health Agency.

- An undiagnosed hearing and/or vision problem may interfere with development.
- Early detection and treatment of hearing and vision problems can help children succeed in school.
- Screenings are conducted by fully trained hearing and vision technicians.
- 10% of children screened for vision and 5% screened for hearing are referred to specialists.

Individuals Enrolled in CSHCS

BHSJ HEARING & VISION SCREENING

COMMUNICABLE DISEASE

“Communicable Disease is caused by micro-organisms such as bacteria, viruses, parasites, and fungi that can be spread directly or indirectly from one person to another. Transmission can occur through insect bites, human to human contact and indigestion of contaminated food or water.”

- World Health Organization

Prevent the spread of disease by doing the following:

- Properly wash your hands often
- Handle and prepare food safely
- Keep up on your vaccinations
- Avoid sharing personal items
- Stay home when you feel sick
- Clean and disinfect commonly used surfaces
- Avoid touching wild animals

What you should know about vaccines:

- We need vaccines to help protect against serious disease.
- Outbreaks of vaccine preventable disease can and still happen in our communities.
- The CDC and FDA take many steps to make sure our vaccines are safe.
- Vaccines protect our children from getting sick.
- Vaccines are for everyone.

AGENCY COVID-19 CASE COUNT BY DAY - 10/1/2020-9/30/2021

HEALTH EDUCATION AND PROMOTION

The Health Education and Promotion staff attended many community events in all three counties in FY 2021. We participated in all three county's fairs as well as several community festivals. The team continues to provide area residents information on agency services including WIC, Immunizations, Safe Sleep, Environmental Health Services, Breastfeeding, Child Passenger Safety, and many others.

Medical Marijuana Operation & Oversight Grant

We continued to distribute lock boxes and educational information at outreach events. Additionally, we continued promoting safe storage and usage of marijuana through radio commercials and billboards. Furthermore, the Health Ed. & Promotion team continues to work collaboratively with the Substance Use and Abuse Task Forces in all three counties.

HRSA Rural Communities Opioid Response Program Grant - Planning

The Health Ed. & Promotion team continued work on the RCORP III: Planning Grant that was awarded to the agency in September of 2020. Many of the project's deliverables were completed during FY 2021, including: a tri-county needs assessment and gap analysis in March of 2021; a strategic and action plan in July of 2021; and a completed memorandum of understanding for consortium members in September of 2021.

Social Media Platforms

Our team continues to utilize Facebook and Instagram to promote health messaging to the communities we serve. These platforms were instrumental in sharing information regarding the pandemic. They continue to be used to bring awareness to many health and safety related topics. Our reach with social media doubled in FY 2021.

School Health and Wellness

Our Health Educators work with youth from our area schools to promote healthy lifestyles, including healthy relationships, drug and alcohol prevention, tobacco cessation, safe driving habits and anti-bullying.

Supporting Community Vaccination Efforts

The Health Education and Promotion Team supported community vaccination efforts through community "pop-up" clinics. In partnership with the United Way of St. Joseph County, Michigan National Guard, and our Mobile Clinic team, we went to numerous community fire stations, churches, schools, businesses, and festivals to provide COVID vaccination.

Employee Wellness

Health Education and Promotion received a grant from the Michigan Association for Local Public Health to provide an Employee Wellness Day. Held in September, this event provided a day of education on stress management, self-care, and restoring balance to our lives in the pandemic. We explored yoga, meditation, and fun as stress reducing techniques.

EMERGENCY PREPAREDNESS

Emergency preparedness encompasses the planning and response to disasters. A disaster is defined by the World Health Organization (WHO) as a sudden phenomenon of sufficient magnitude to overwhelm the resources of a hospital, region or location requiring external support. Emergency Preparedness played an integral role in the agency's COVID-19 pandemic response during 2021. The Emergency Preparedness team at BHSJ works hard every year to be ready in any event. Emergency Preparedness is an essential service area of Public Health.

2021 Highlights

- *Community COVID-19 Testing* - COVID testing with MI National Guard (MING) began on 6/6/20 at Doyle Community Center in Sturgis and continues today. Weekly testing clinics continue today with support from the MING and HONU (through MDHHS). As testing requirements and guidance changed throughout the pandemic our clinics were steady and even very busy at times (especially when the I-69 rest stop clinic was closed). Testing clinics were held no matter the day's weather conditions.
- *COVID Vaccination Clinics* - January 2021, we started holding mass vaccination clinics. Our first location was Sturgis High School. From the first 300 shot clinic, to clinics over 1,000 shots per day, agency staff and volunteers, assisted by the MING, were able to meet the challenge of getting out as many vaccinations as were requested. Locations varied from school gymnasiums to churches. We even utilized each county's fairgrounds for drive through clinics. There were several six-day weeks, and little rest, but our staff and volunteers never faltered.
- *Plans and Training* - We are tasked to review and improve our emergency plans and training annually. During the pandemic, our Agency and volunteers applied our plan, and adapted to every change needed. Our Emergency Response Plan was also reviewed by an outside agency. The plan will be improved in the areas noted, especially in the area of Elder Services.

2021 Top Hazards in Branch, Hillsdale and St. Joseph Counties

- Natural:
 - COVID-19 Pandemic
 - Floods
 - Tornadoes/severe storms
 - Winter Weather
- Technological:
 - Utility Disruption
 - Releases hazardous chemicals from manufacturing/agricultural businesses.

- *Whole Community Inclusion* - MDHHS tasked Emergency Preparedness Coordinators with a five-year project to develop a Whole Community Inclusion plan, including the performance of an exercise. We were into the second year of the plan process, when COVID-19 changed our planning and exercising work into a ***Real Event***. It was gratifying to see each county pulling together to make

sure that all were notified of the incident and steps were taken to aid all those who were affected. A "after action report" which will conclude the project will be forthcoming this year.

ENVIRONMENTAL HEALTH

Interactions with the environment affect quality of life, years of healthy life lived and health disparities. The World Health Organization (WHO) defines environment, as it relates to health as “all the physical, chemical and biological factors external to a person and their related behaviors. “Environmental health consists of preventing and controlling disease, injury and disability related to the interactions between people and their environment.

The Environmental Health (EH) division has a variety of programs to serve our communities. The two most prominent programs are food service sanitation and well/septic programs. The food service program inspects restaurants, schools, industrial kitchen sites, temporary food establishments, and mobile food facilities. Our field staff conduct site evaluations and issue permits for the construction of septic systems and water wells for home and commercial sites.

Additionally, Environmental Health performs the following services:

- Campground inspections
- Public pool inspections
- General nuisance complaints
- Body Art facility inspections
- Non-community public water supply monitoring
- Daycare and Foster Care inspections
- Septage hauler inspections
- PFAS contamination investigation
- Vapor intrusion investigation
- Long term monitoring of water supplies in contaminated areas

For the past four years, the CDC and MDHHS has funded a grant project for vector surveillance. This grant focuses in two areas: 1.) Mosquito trapping and identification for the mosquitos associated with the Zika virus. 2.) Tick dragging and identification for ticks associated with Lyme disease. In addition to trapping and identification, we provide public education and public service announcements. This program offers an opportunity for college students with an interest in public health to obtain work experience during the summer months.

Food Protection

This program provides a systematic approach to minimize the risk of food-borne illness and to ensure that food meets customer's expectations through the application of statewide standards for all establishments where food is prepared and/or served to the public.

	<i>2020</i>	<i>2021</i>
<i>Establishment Inspections</i>	808	882
<i>Plans Reviewed</i>	13	30
<i>Temporary Food Establishments</i>	79	163
<i>Food Manager Certification Class (# of attendees)</i>	0	0
<i>TOTAL</i>	907	1,075

Private and Public Water Supply

These programs are designed to ensure the proper installation of residential water wells, and the monitoring and regulation of type II public water supplies to ensure safe, usable ground water.

	<i>2020</i>	<i>2021</i>
<i>Well Construction Permits Issued</i>	583	621
<i>Well Permits Inspected</i>	412	433
<i>New Water Supplies Approved</i>	388	428
<i>Non-Community Water Supply Inspections</i>	73	59
<i>TOTAL</i>	1,456	1,541

On-Site Sewage

Reviews sites for proposed sewage disposal, issuance and/or denial of permits, sewage evaluation, inspection, investigation, and enforcement.

	<i>2020</i>	<i>2021</i>
<i>Well/Septic Evaluations</i>	13	21
<i>Construction Permits</i>	481	542

<i>Vacant Land Evaluations</i>	63	49
<i>Change of Use Evaluations</i>	363	365
<i>TOTAL</i>	1,308	1,380

Other Programs

Although the well, septic, and food programs require the biggest portion of the environmental health staff focus, we do have responsibilities in other programs.

	<i>2020</i>	<i>2021</i>
<i>Swimming Pool Inspections</i>	52	48
<i>Campground Inspections</i>	65	61
<i>Body Art Facility Inspections</i>	8	14
<i>DHHS Inspections (Daycare, Foster Care, ect.)</i>	55	53
<i>Septage Hauler Inspections</i>	38	36
<i>TOTAL</i>	218	212

AREA AGENCY ON AGING (IIC)

Our mission is to provide a full range of high-quality services, programs and opportunities which promote the independence and dignity of older adults while supporting those who care for them throughout the Branch and St. Joseph Counties.

Please contact the Branch-St. Joseph Area Agency on Aging for specific information and assistance at (517) 278-2538 or toll free (888) 615-8009.

- We place the people we serve at the center of our operations, honoring their preferences and privacy.
- We assure efficient use of public and private resources.
- We develop programs and services using an inclusive process to promote healthy aging and livable communities for all ages.
- We exhibit strong leadership which responds to changing needs and fosters collaboration and cooperation through the communities we serve.
- We use effective communication to carry out our mission and vision in an open, respectful and unbiased manner.

Laura Sutter, *Director*

Over the past year, the Area Agency on Aging IIC continued to rise above challenges posed by the COVID-19 pandemic. Newly developed programs, supports and services continued to flourish to meet unique needs across our two-county planning & service area.

We gratefully acknowledge our extraordinary provider network, who tirelessly serve individuals with compassionate, high-quality care: A+ Nursing, Branch Area Transit Authority, Branch County Commission on Aging, Community Action Agency of Southcentral Michigan, Connect America, Crossroads Homecare, Home Care Wellness, HomeJoy, Legal Services of Southcentral Michigan, Long-Term Care Ombudsman/Area Agency on Aging 3A, Medical Care Alert, St. Joseph Co-Op/Hulda's Household Helpers, St. Joseph County Commission on Aging, St. Joseph County Transportation Authority, Thurston Cares Adult Day Program and VRI, Inc.

Elder Abuse Prevention and Awareness: The Services to Victims of Elder Abuse (SVEA) project completed its third year of grant activities. Victim Specialists served 41 individuals with a wide range of direct services including personal advocacy, crisis intervention, emergency financial assistance, relocation assistance, criminal justice advocacy, and personal protective orders. Victim Specialists maintained regular contact with referral sources and each county's multi-disciplinary team/coalition group. As we look ahead, more training events and community partner networking will be a top priority in an effort to continue emphasizing awareness & prevention.

If you would like more details or to become more involved in your community's efforts to prevent abuse, neglect, or exploitation, please call our office.

Community Living Program continues to soar! - Care Consultants work with individuals who have complex medical/social needs to develop a person-centered support plan. Over 80 individuals were served in their home over the past year! Assessments & monitoring continued via telephone along with additional feedback from direct care staff to assure participant success and safety.

If you would like more information about the Community Living Program or other services available in your community, please contact our office.

Personal Protective Equipment - AAA IIC continued to distribute personal protective equipment among community partners throughout the year including items such as: masks, face shields, hand sanitizer, gloves, gowns, shoe covers, and sanitizing wipes.

Direct Care Worker Premium Pay - AAA IIC providers and vendors were allocated COVID-19 relief funds to support a \$2.00 per hour wage increase. These direct care workers provided hours of personal care, homemaking, respite care and/or adult day services during the pandemic. Over 19,000 hours were reimbursed from October 2020 - September 2021.

Program Success - Friendly Reassurance and Gap Filling services remained supportive to the needs of individuals across our communities. Friendly Reassurance calls were made regularly to address social isolation being felt by so many. Gap Filling became essential to address unique needs that we, and our community partners, couldn't provide for otherwise. Over 2,000 individuals benefitted from these supportive services. No Wrong Door funding was utilized to purchase technology & devices in an effort to encourage older adults to virtually participate in programming, social media, and on-line learning sessions to prevent social isolation.

Senior Project FRESH - Over 100 coupon books were distributed throughout the spring & summer of 2021. Senior Project Fresh provides free nutrition counseling and \$20 in coupons to be used at local participating farm markets for fresh fruits & vegetables. Residents who are age 60 or older and who meet certain household income/eligibility may apply for the program through our office or through our community partners. Please contact us for more information!

COVID Care Packages - The COVID Care Package effort continued into 2021 due to its success in offering community members an opportunity to stay creative, understand COVID, and remain safe at home. Please contact our office if you would like more information or to receive a Care Package.

Call Center & Vaccination Appointments - The AAA IIC team transitioned from answering hundreds of incoming calls to scheduling hundreds of COVID vaccination appointments. Each call was unique and addressed multiple questions, provided information about the venues, shared information about what to expect at a large-scale clinic, as well as arranging for transportation to appointments. Our team worked in conjunction with the Community Health Agency to assure an age-friendly approach in all aspects of providing information to callers, scheduling appointments, and coordinating supports when needed.

Area Agency on Aging Annual Report Data & Highlights FY 2021

Services	Totals	Units
Operations	\$62,711	N/A
Nutrition	\$671,036	144,613
In-Home	\$362,945	30,893
Community	\$89,451	1,267
Access	\$440,165	32,719
Legal	\$11,564	357

*Traditional Federal & State (OAA/OMA) funding sources only

Population Served**	
Total Population 18+*	15,323
White (non-Hispanic)	13,827
African American	89
