FOR IMMEDIATE RELEASE

**“No Contact” Health Advisory is Cancelled
Update to 6/22/2011 Health Advisory**

Union City, Michigan. The Branch-Hillsdale-St. Joseph Community Health Agency has cancelled the no body-contact advisory for the St. Joseph River at Union City. On June 22nd, the health department issued a no contact health advisory from west of the John Street Lift Station to the Union Lake Dam due to a sewage discharge. Water samples collected by Union City’s Board of Public Works yesterday indicate that water quality is now acceptable for human contact.

The Branch-Hillsdale-St. Joseph Community Health Agency continues to urge all residents to use caution when using local waterways. Sewage spills and storm runoffs are common when rainfalls are heavy.

The Branch-Hillsdale-St. Joseph Community Health Agency makes health information available on its website under the Frequently Asked Questions button. Go to www.bhsj.org to learn more.
