Press Release

Sewer System Sanitary Sewer Overflow

Illegal Sewer Connection Results in Portage River Sewage Contamination

Three Rivers, MI, September 23, 2015: On September 22nd at approximately 3:30 PM Waste Water Treatment Plant (WWTP) personnel were notified of an illegal sewer connection by a homeowner that resulted in a Sanitary Sewage Overflow (SSO). The illegal connection was given a temporary repair to stop the single homeowner's sewage from flowing into the Portage River by Department of Public Services personnel. The City will pursue a permanent solution with the homeowner. WWTP staff made the required notifications to Michigan Department of Environmental Quality and the Branch-Hillsdale-St. Joseph County Health Department for this event.
