

HSN Indicators

School Aged Children
September, 2008

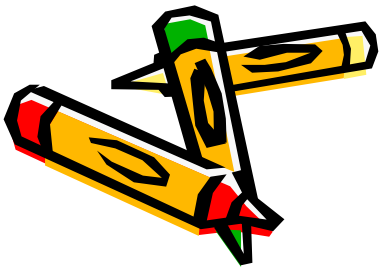

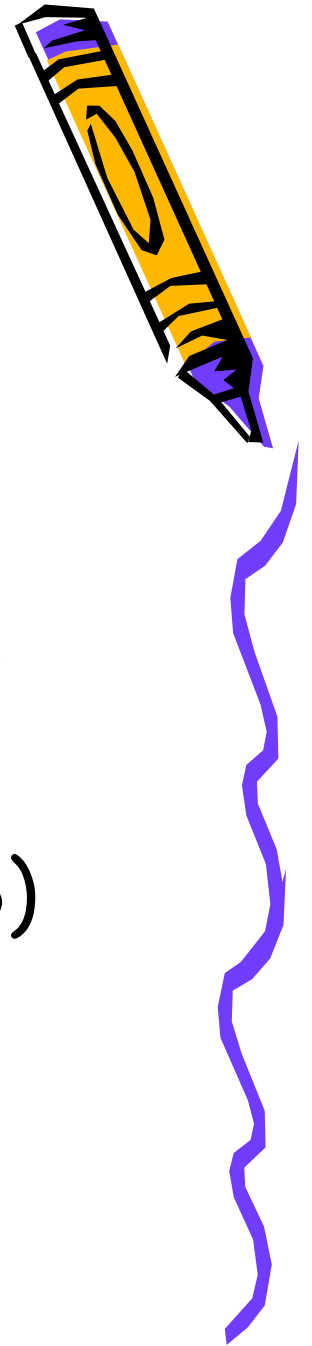

Hmmm...

- Humor helps us to think out of the box. The average child laughs about 400 times per day, the average adult laughs only 15 times per day. What happened to the other 385 laughs?

Survey data - Change!!

- 2006 Hillsdale County Prevention Needs Assessment (PNA)
- 2008 Michigan Profile for Healthy Youth (MiPHY)
- Youth Risk Behavior Survey (YRBS)

* New Survey Tool *
MiPHY
Michigan Profile for Healthy Youth

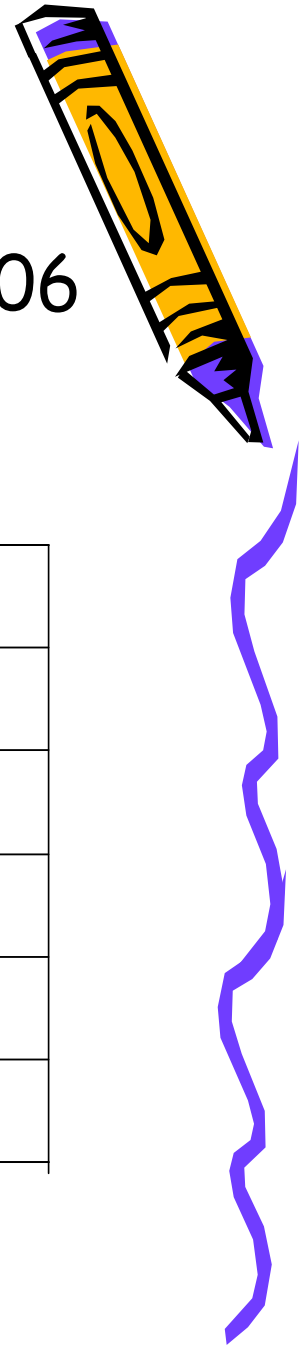

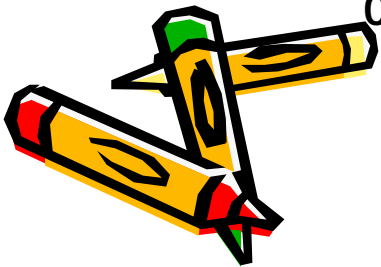

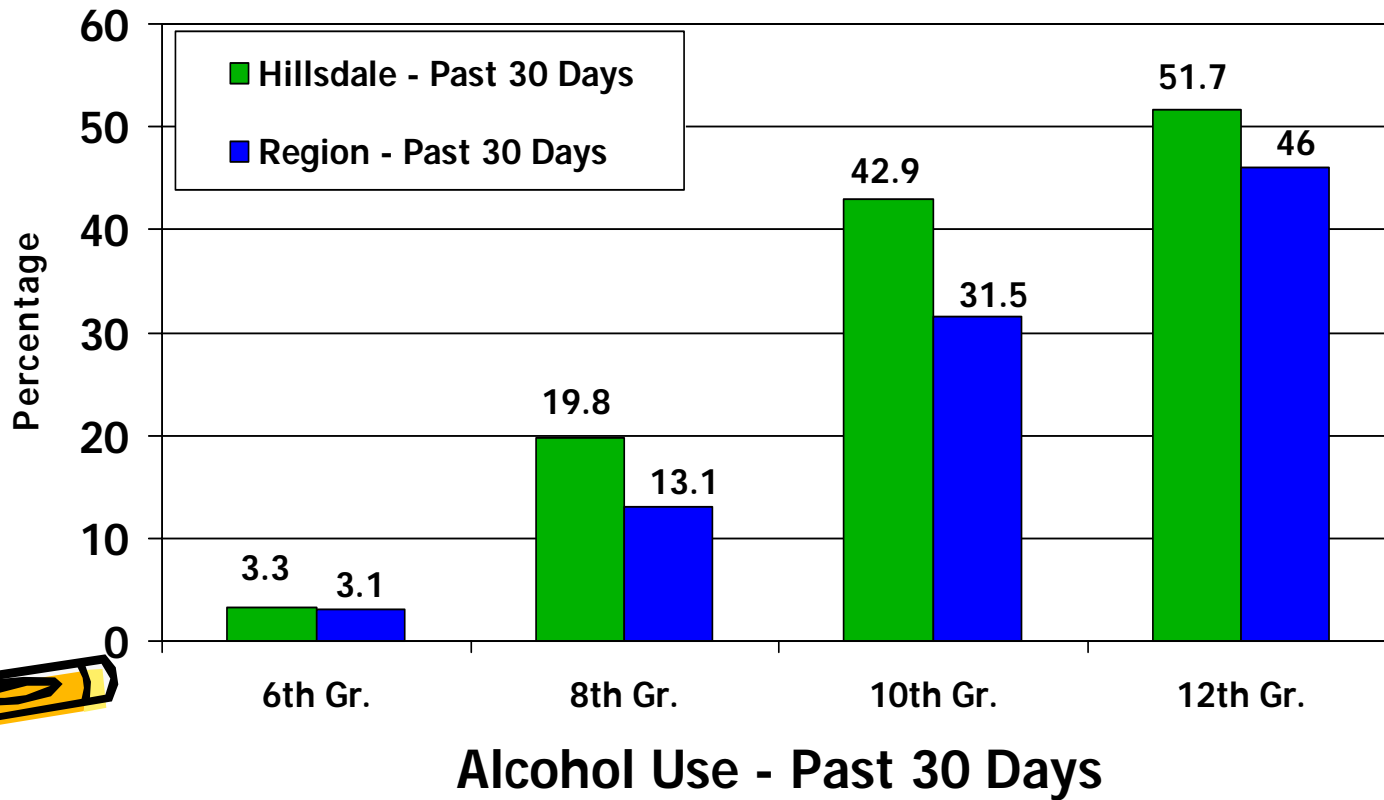

- Web-based, anonymous survey offered by MI Department of Education (MDE) and MI Department of Community Health (MDCH).
- Biennially to Grades 7,9, and 11.
- Incorporates elements of Youth Risk Behavior Survey (YRBS).
- Free of charge to schools and communities.
- Results available to schools quickly.

MEAP - A FOUR LETTER WORD?

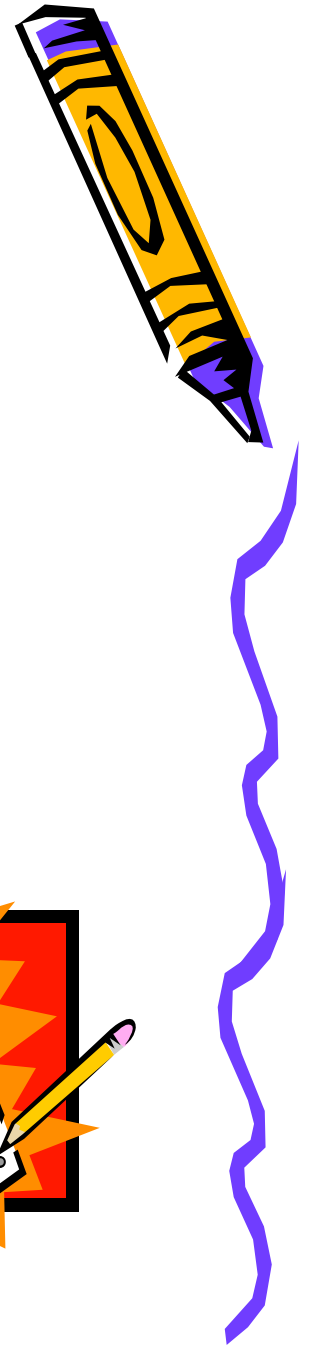

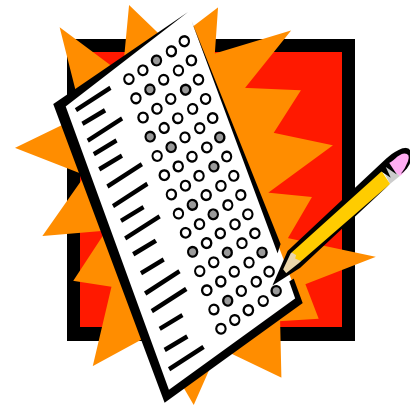

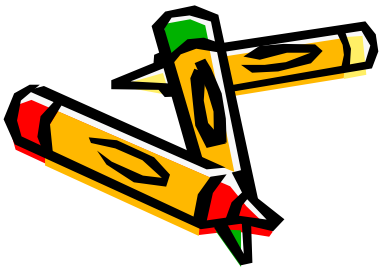

Michigan Educational Assessment Program

Measures students' knowledge and achievement in five areas: math, reading, science, social studies, and writing. Michigan's MEAP tests are based on the Model Core Curriculum Outcomes and the Content Standards approved by the Michigan State Board of Education. Michigan's MEAP tests results are reported as performance against a standard. Performance is judged according to whether or not the student has met the achievement standard. The MEAP test is the only common measure given statewide to all students. It is important to keep in mind that a MEAP score is only one achievement measure at one point in time. MEAP results should be considered along with other achievement measures, and should be viewed in local context.

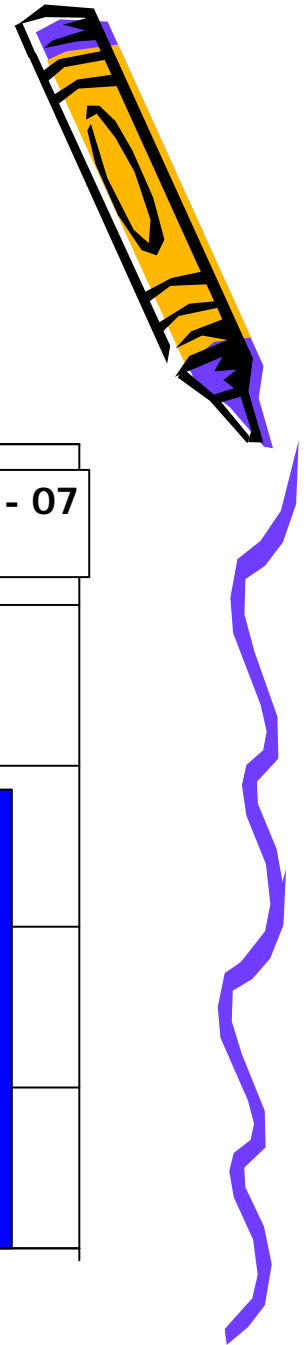

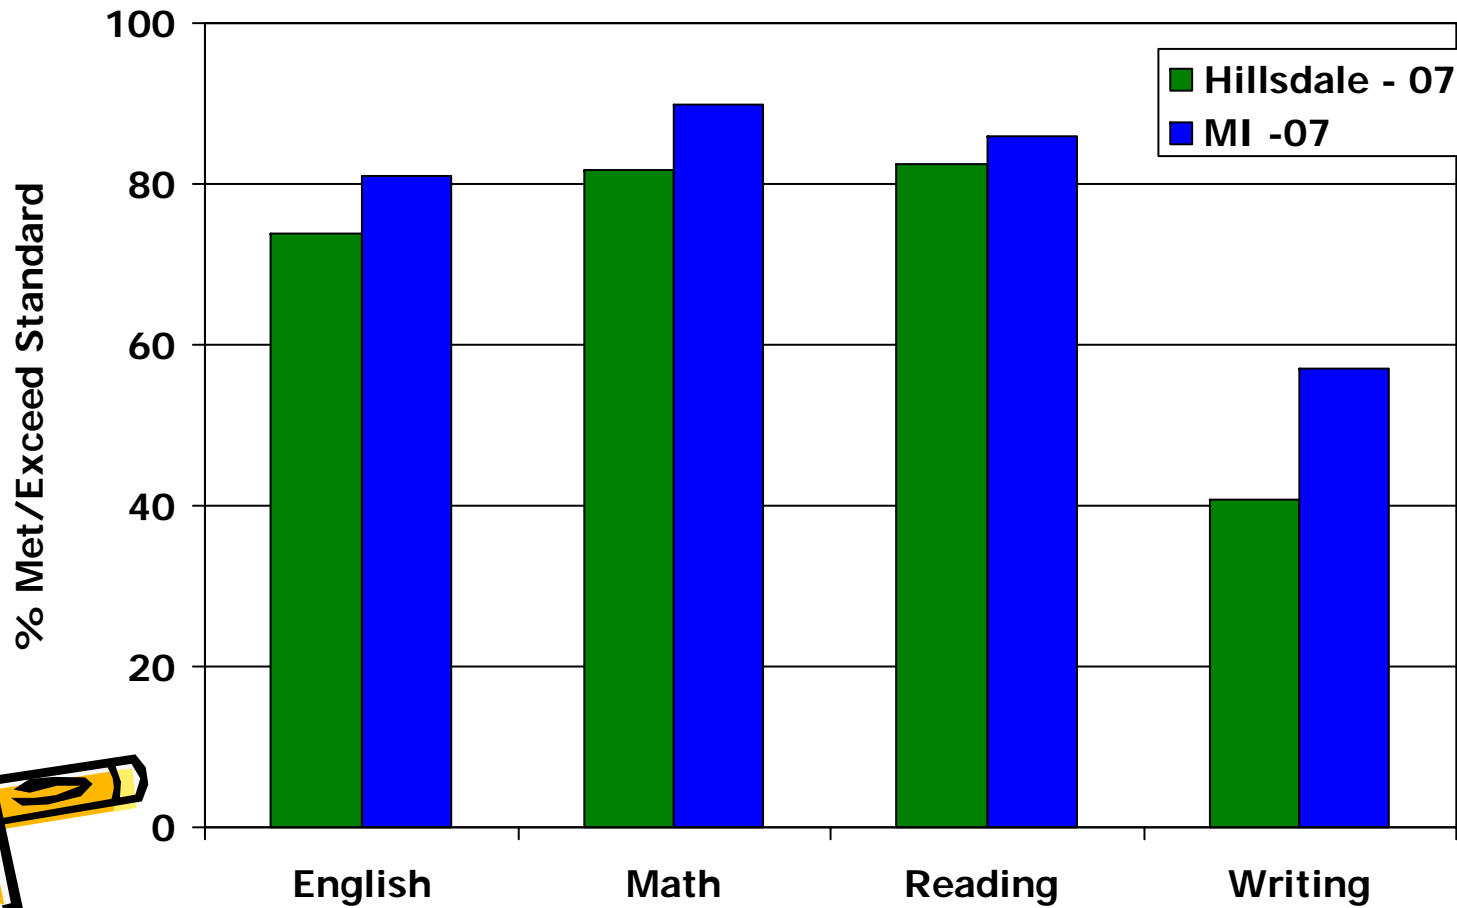

MEAP Results

- Due to changes in the MEAP nearly every year, trend data is merely impossible. The following data represents a comparison for the MEAP 2007 test results between Hillsdale County and the State. Love it or hate it, the MEAP is standardized across the State and comparing HD to MI is a valid comparison.

Graduation Rates

- The Michigan Department of Education uses graduation rates to estimate the percentage of grade 9 students who complete and graduate from high school. This is computed by multiplying the 4 retention rates for grades 9-12. Retention rates are the district dropout rate subtracted from 100.

Juvenile Court (some basics)

- Step 1- Preliminary hearing - screen out cases not needing to go before Juvenile court judge (first time offenders, minor offenses). These minors are included in the number of juveniles under the jurisdiction of the court.
- Step 2 -Adjudication - case goes before judge. Status determined. Investigation activated to determine course of action.
- Step 3 - Disposition - Judge decides course of action (sentence) for juvenile offender/family.

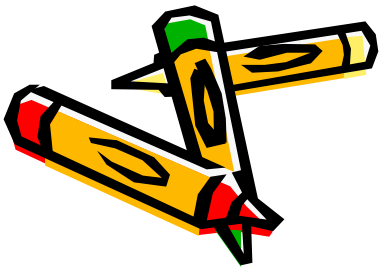

Total Minors under Court Jurisdiction Hillsdale Co. 1998-2007

Source: Hillsdale County Juvenile Court

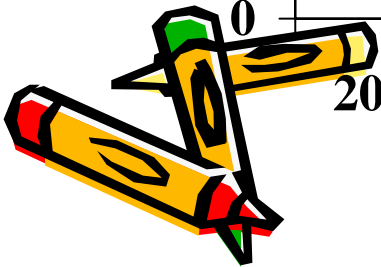

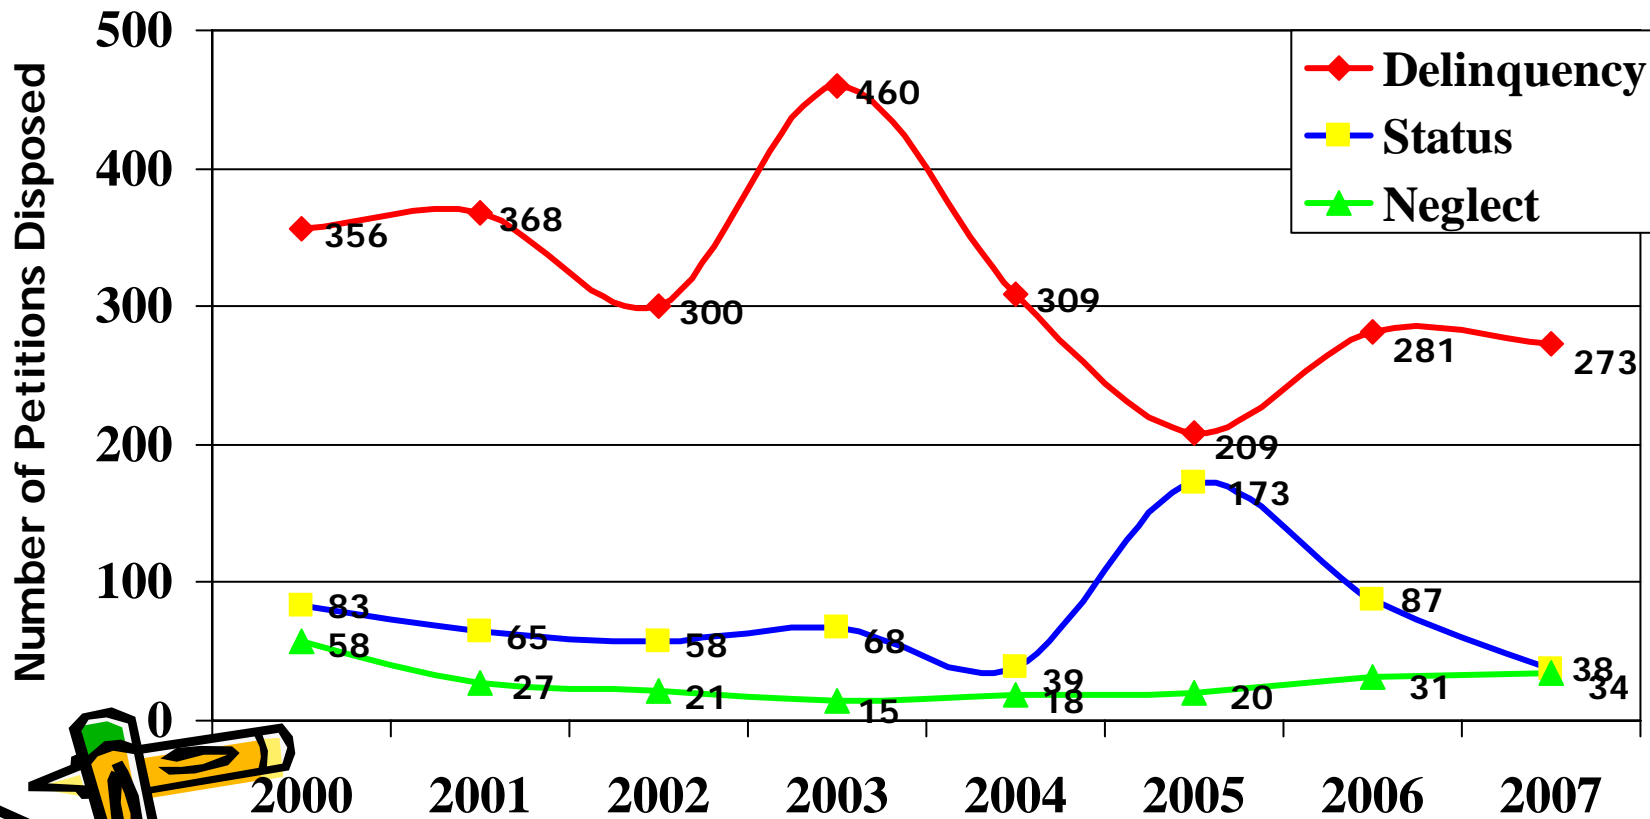

Juvenile Court Disposition terms

- Delinquency - juvenile criminal activity, example: shoplifting, vandalism
- Status - criminal activity of minor due to their age (status). Examples include runaways, smoking, truancy, dropout.
- Neglect - often includes more than 1 child. Example: If a parent of 4 abuses 1 child, all 4 would come under court jurisdiction.

1	\$10,400
2	\$14,000
3	\$17,600
4	\$22,200
5	\$24,800
6	\$28,400
7	\$32,000
8	\$35,600

Wisdom?

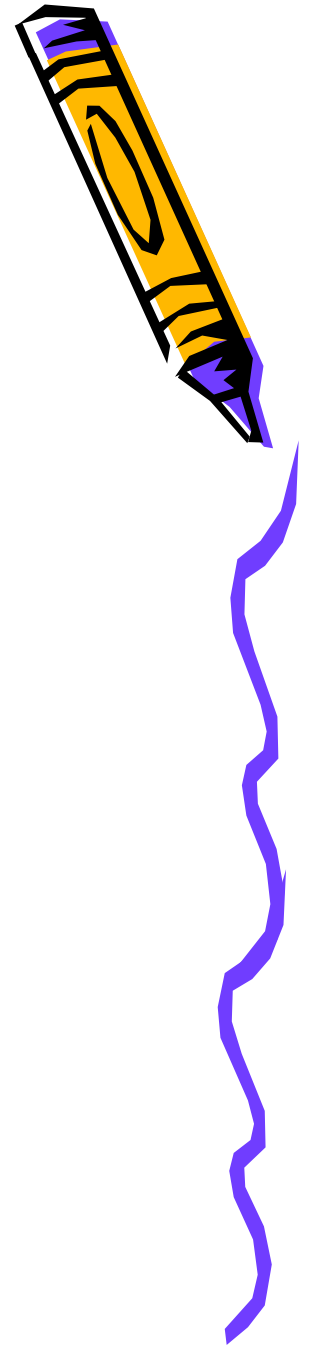

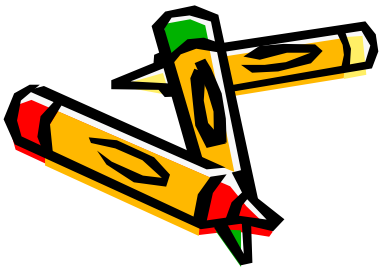

- When I was a boy of fourteen, my father was so ignorant I could hardly stand to have the old man around. But when I got to be twenty-one, I was astonished at how much the old man had learned in seven years.

Mark Twain

Oh to do it all again

If I had my child to raise over again
I'd build self-esteem first and the house later
I'd finger paint more and point the finger less
I would do less correcting and more connecting
I'd take my eyes off my watch and watch with my eyes
I would care to know less and know to care more
I'd take more hikes and fly more kites
I'd stop playing serious and seriously play
I would run through more fields and gaze at more stars
I'd do more hugging and less tugging
I'd see the oak tree in the acorn more often
I would be firm less often and affirm much more
I'd model less about the love of power
And more about the power of love.

Diane Loomans
